**IT SURVEY**

We appreciate all who participated in the IT Survey initially distributed on April 30, 2019. 18 responses were received. Most did not have dependable IT support and were interested in some sort of IT support network. Half the respondents reported some sort of member database.

**CHURCH MANAGEMENT SYSTEM (ChMS)**

We solicit one or two small churches who see value in having a ChMS (member database), to determine the possibility of implementation of a ChMS initially supported, and possibly financed, by CAT. Please find us at this meeting or email: cat@santafepresbytery.org

Respectfully submitted,

/s/
