

Report of the Worship Networking Committee
June 2017 Presbytery Meeting

The Worship Networking Committee continues to find its way through this new way of being Presbytery. We have given our first grant to the group, Music Makes Community, to support a local conference on Paperless Singing in Worship. This grant also allowed people from PSF to attend at reduced rates. We continue to welcome grant applications that would help congregations and others engage in creative and new forms of worship. See the Presbytery website for application forms.

We also are working with our Moderator, Rev. Lorelei Kay, in planning the elements of worship throughout our meetings.

One of the areas we hope to grow is the sharing of best practices in approaches to worship, liturgies, and creative ideas for worship. We would like to build a base on the PSF website where one could find people and resources in planning worship. The responses the presbytery gave at lunch were a good start for us to do this.

If there is a way we can be helpful to your congregation or a cluster of congregations, please do not hesitate to contact us.

Respectfully submitted,
